ELECTRIC LIGHT

For Stores, Factories and Public Buildings.

THE WESTON ARC SYSTEM, which has been used in this city the past two years, having been greatly improved, we can now guarantee a steady and reliable light. The light from the Weston system is perfectly white, and thoroughly diffused with none of the blue and violet rays so objectionable in other lamps. From its near approach to natural light the slightest difference in colors can be readily distinguished.

We would call attention to our INCANDESCENT SYSTEM; parties having their own power can use this light at a price which will compare favorably with the cost of gas.

FORTY YEARS SOUGHT FOR!

NO SOOT ! NO CLINKER ! NO GAS ! NO NUISANCE !

THE GREENE
Soft Coal Cooking Stove!

This New Stove consumes all varieties of Bituminous Coal without forming Clinkers, Making Soot, Creating Gas or Nuisance of any kind, and is especially adapted to burn Slack Coal or Culm, Wood, Corn or Corncobs perfectly. It is a good COOKER, BAKER and BROILER; quick in operation, and possesses the merit of GREAT ECONOMY. In fact, it is Perfection in the way of a Cooking Stove. It is easily cared for—the grate is never dumped, no ashes to sift or clinkers to remove, is cleanly in its operation and is of GREAT DURABILITY. The annexed testimonial is one of the many received.

From H. S. Chamberlain, Esq., President of the Roane Iron Company.

CHATTANOOGA, Tenn., Jan'y 11, 1880.

Gentlemen:

Hearing the Greene Stove highly spoken of as being very economical in fuel, and satisfactory for family use, I, some months since, procured a No. 9 Cooking Stove of this pattern, and after thorough trial find it even better than I had expected. I have tested it carefully with all sorts of coal found in this section, including the Tennessee, Dado, Soddy, Knoxville, Daisy, and Rockwood, and find that any of these can be burned, either fine or coarse, without clinker and with very great satisfaction. The stove is emphatically a smoke consumer, in which all gases usually wasted up the chimney are utilized, and in point of economy I am within the mark when I say the amount of coal consumed for ordinary cooking and other kitchen purposes is less by one half than in any other stove with which I am acquainted in the market. Its cooking qualities are supremely excellent. It is the only soft coal burner known to me which can be used pleasantly and economically in the kitchen, and being quickly heated and as free from dust and dirt as a wood stove must, as soon as its merits are known, take the place of all other varieties. I am very glad to say this much for your stove, as it is gratifying to see an effort to apply valuable scientific principles in household economies meet with such merited success.

I am very truly yours,

H. S. CHAMBERLAIN.

—  —

This Stove meets a want long felt in those regions where Bituminous Coal is a prevailing fuel. As this important invention, covering the Eastern and Western Continents, is the property of a Newark Company, Citizens having friends in the Bituminous Coal burning regions are invited to apply to the Company for Circulars and Testimonials, and thus extend the knowledge of this NEWARK INDUSTRY.

PREFACE.

It is gratifying to record the continued prosperity of our city, that the cloud of financial disturbance through unfaithful officials has passed away, and that the fair fame of Newark has been re-established; and it is also highly gratifying to know that two of her most able sons hold the highest positions of honor and responsibility in the National Government.

The canvass shows an increase in business and population, which latter is estimated at 140,000.

Throughout the city are factories, stores and dwellings being erected, while old ones are being transformed to a better condition for occupancy, which evinces true material progress.

The drainage canal, which with others may result in the reclamation of an extensive meadow land, and the re-paving of the principal street with enduring granite, are measures promising well for the city.

Newark, while within half an hour's distance from the centre of trade in New York, and virtually a suburb of the metropolis, holds its individuality as a manufacturing centre and sends its products throughout the world. The exhibition of its industries held some years since, gave it prominence and demonstrated its ability in the way of variety and quality of manufactures, and attracted visitors from every clime, assuring the city of lasting benefits by the extension of its foreign trade.

Continuous orders for this Work and frequent letters of inquiry relative to various interests of the city, received by the publisher from foreign cities, indicate the growing importance of Newark and of the Directory as a representative work.

The geographical position of Newark is one of consideration; lying as it does in the direct route between New York and the great West and South, it is brought to the direct notice of the myriads of travelers who pass through it.

The opening of a free highway for wagon travel between New York and Newark would mark an era in Newark's progress and growth of inestimable benefit. Newark in its infancy requiring facilities for communication with the metropolis, invited capital to its aid by mortgaging one hundred years of its future, and now having reached mature strength, and needing this free outlet, can well afford to purchase at an equitable rate, the franchises of the company who have so long held undisputed sway over these important highways. It is a matter of regret that attention has not been called to the necessity of adding these roads, which the growing traffic demand, to the good work of those who opened other free avenues of communication.

To increase the interest of this work a map of railroad routes from New York to Washington, also to Greenwood Lake, also on the map of the city a map showing the territory lying easterly between New York and Newark with the various means of communication between these two cities have been added, together with other matters of interest, for which we would refer to the Table of Contents on pages following.

As to this Work, should any discrepancies appear, citizens are cordially invited to communicate with the Directory Office, 11 Mechanic Street.

Maps of Newark, also of Essex County, may be obtained at the above office.

G. H. Bosch's Pure Domestic Wine,

FOR MEDICINAL AND COMMUNION PURPOSES.

REASONS WHY Physicians recommend this Wine in preference to all others :

FIRST—It is no imitation of any Foreign Wine.

SECOND—You buy it direct from the manufacturer, who sees to every detail himself, from the purchasing of the fruit to the time of bottling.

THIRD—There is not a drop of Alcohol used in its manufacture, nor any adulterations, it is therefore the purest Wine in use. It is not an intoxicating but invigorating Wine, a pure blood strengthening tonic, to be had only in its purity.

Desirability of a Business Education.

It is beginning to be felt by men of all avocations, by professional as well as business men, that a business education is essential to the welfare of the youth of our day. This is the age of commerce, of invention, and mechanics, and the atmosphere of the commercial school is well calculated to engender a love for the useful arts and for mercantile pursuits, and it is there that many a time the foundations of lives of regularity and economy are laid, and young men and women are saved from those trials and misfortunes whose only sources are carelessness and improvidence. Regularity is not only the road to wealth, but to virtue.

The Newark Business College is par excellence a commercial school, as it affords students every facility for a practical business education, and is conducted on the All Actual Business principle, which beyond all doubt is the best in its workings and results.

All Actual Business.

The All Actual Business idea is original with this institution. We are the pioneers of this method of business education.

Our course in accounts is the outcome of years of study and criticism of prevailing theories and systems, and we claim that it is the most thorough, comprehensive, time-saving and scientific that was ever followed.

It has been compiled from the most known and reliable business sources, and arranged with the utmost care as to their requirements, for the especial benefit of the students of the Newark Business College, who, when they subsequently enter business discover with pleasure that they are quite at home and that they are enjoying the good fortune of having graduated in a course that was a true counterpart of prices, methods and habits of real business life.

But whilst we bestowed so much time and study on the principal course, we have not forgotten the auxiliaries. Lessons are given in BUSINESS CORRESPONDENCE three times a week by the Principal, and he requires of the students letters treating of matters of fact, actual occurrences that have come under his observation in business life, and the various technical notes and letters exchanged in the ordinary course of affairs.

COMMERCIAL LAW. It is needless to speak of the value of this study, and the student will find the lessons given in it not less entertaining than instructive.

PENMANSHIP is taught by PROF. AMOS ALLOWAY, the accomplished penman, whose ability and tact as a teacher of the beautiful and useful art are wonderful. There was a time when crabbed, awkward and ugly writing was considered an indication of genius. That time, thanks to the growth of common sense, has passed away, and now one of the first questions asked of an applicant for any desirable position in business is, "Is your handwriting good?" An unfavorable answer to which generally ends the young man's chances.

Uniform rates and easy terms. An important and significant feature of our method of doing business with our patrons is that we do not require payment for a whole term in advance. Payments are only required monthly and as follows:

Full Course—Day Sessions.....	\$7 00 per month.
Full Course—Day Sessions Ladies.....	5 00 " "
Full Course—Evening Sessions	3 50 " "
Special course on Penmanship, day or evening.....	3 50 " "

English Grammar is included in the course, and is, with Business Correspondence, a specialty at this institution. All other languages—German, French, Latin, Greek, &c., \$3 50 per month.

Estimated cost of books and stationery for the Business Course, \$6. As students generally finish the course in four months it will be seen that such important and valuable education will cost them a comparatively trifling sum:—

Four Months' Tuition at \$7 per month.....	\$28 00
Books and Stationery.....	6 00

Total cost..... \$34 00

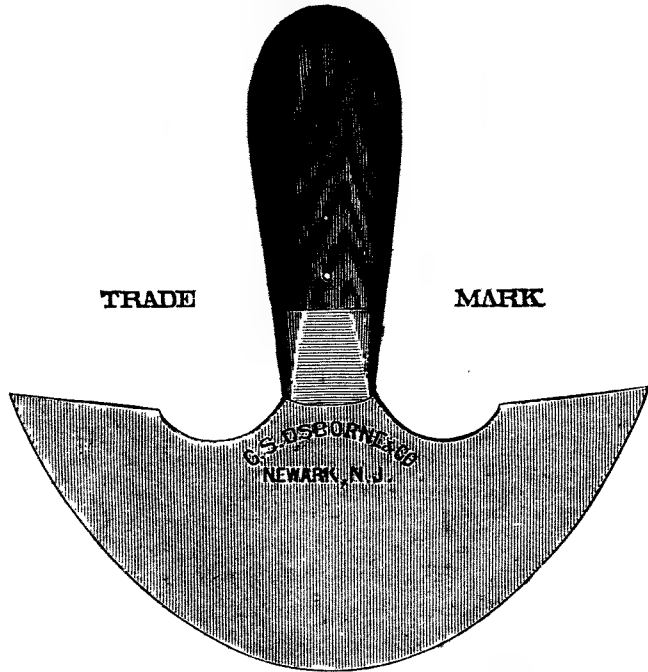

ACCOMMODATIONS. Our rooms are the finest in the city, the most commodious, the best lighted, the best ventilated, the best heated, with every accommodation in the way of cloak-rooms, toilet, &c.

THE NEWARK BUSINESS COLLEGE is in the Centennial Buildings, 215 and 217 Market Street, next the First Reformed Church.

Provident Savings Life Assurance Society

OF NEW YORK.

Branch Office, 721 Broad St., Newark.

HOME OFFICE, THE BRYANT BUILDING, NEW YORK.

Cash Capital, \$100,000.00. Surplus to Policy Holders, \$115,000.00

SPECIAL FEATURES.

(1.) Life Insurance purchased by equitable mortuary payments to meet death claims after their actual occurrence, and where the promise to pay in full the sums insured is secured by the capital and assets of a regularly incorporated life insurance company.

In this way the definite promises and guarantees of the old system are combined with the popular features as regards economy and convenience of payments of the coöperative or assessment plan, and the disadvantages and defects of both systems are avoided.

(2.) Mortuary payments will be collected to pay approved claims by death, only after their actual occurrence.

(3.) The charge for expenses, after the payment of an admission fee, is LIMITED to two dollars per annum on each one thousand dollars insured.

(4.) Claims by death occurring three or more years after date of policy, incontestable for any cause.

ELECTION OF PRESIDENT AND VICE PRESIDENT OF THE UNITED STATES. ELECTORAL COLLEGE.

The voters elect in the several States as many persons as there are members of Congress, known as Electors. These electors meet at the State Capitols upon a fixed day, and cast the electoral vote of the State for President and Vice President. Copies of this vote are sent by messenger to the United States Secretary of State and to the President of the United States Senate, and opened and counted at a joint meeting of both Houses of Congress in February following the election. The persons receiving the majority of the electoral votes for the two offices are declared duly elected President and Vice President of the United States for four years from the ensuing 4th of March. In case no party has a majority of the electoral vote, the election is made by the House of Representatives alone, each State casting one vote (which is controlled by a majority of the Electors), and a majority of all the States is necessary to a choice."

No Senator or Representative, or persons holding an office of trust or profit under the United States, is eligible for an Elector.

Post Money Orders, for sums not exceeding \$100 each order, can be obtained at the principal offices throughout the country. The use of these orders, by persons who desire to make remittances by mail, is far preferable to sending money, even when the letter containing it is registered. By the money order system, *absolute security* against loss is obtained. Money orders are good for one year from the date of issue. In case of their loss, no charge is made for the issue of duplicates. Persons sending money orders should be careful never to send them in a letter which contains the name of the person from whom they are sent. This is necessary in order to guard against loss in case the letter should fall into improper hands, money orders *never* being paid to any person who cannot tell the name of the party to whom they were issued.

Postal notes for the transmission of small sums under five dollars, on which a fee of three cents shall be charged, will be issued about October 1, 1883.

As letters are frequently dropped in the letter-boxes insufficiently paid, persons who are not certain in regard to weight, rates, etc., would do well to inquire of the Stamp Clerk before mailing them. If sent to the Dead Letter Office they are delayed two or three mails.

These Rasps and Files are made of the BEST AMERICAN STEEL. Our Horse Rasps have been pronounced the BEST IN THE MARKET, by all experts who have been using them for the last sixteen years. Their superior quality and workmanship

is also best evinced by the growth of our reputation and the large increase of our manufacture year by year, which has enabled us to introduce them in the principal cities of the United States and Canada, where they are now almost exclusively used.

We guarantee our Files to be as good as our Rasps; and all our goods to give entire satisfaction. Rasps and Files not stamped as above are not genuine.
